

What is Staging®?

Staging® is a means to transform your home into a style which is attractive to buyers that has been proven to sell homes faster and/or for more money.

This not only entails de-cluttering the house, but also arranging furniture and accessories in a way that draws the eyes to the key selling points of a house, and instills a feeling of welcome and comfort.

The benefits of Staging and other services offered by Successful Home Staging are not limited to house sellers - an inviting, functional and cozy environment is attractive to everyone.

All our services are available on a flat-rate basis, so relax and enjoy the transformation, rather than looking at the clock.

A clean, uncluttered workspace is a key selling point for kitchens.

Staging Works!

A recent nationwide survey¹ has shown that homes that have no market interest (listed on the market for an average of 136 days), when Staged by an Accredited Staging Professional (ASP™) are under agreement after an average of 7.6 days. Moreover, the equity increase is a minimum of 3% (as much as 50% in some markets).

Attractive homes do sell, but after an average 32-42 days on the market. When a home is professionally Staged before going on the market, the average time to 'sale pending' status is 6.8 days! Again with the same equity increase mentioned above.

Having your home professionally Staged by a certified ASP™ Stager, is a solid investment, with an average return on investment of 169%². 'Lighten and Brighten' and 'De-cluttering' yield average return on investments of 769% and 594% respectively!
